VINAY VIRAT

PLATFORM SOFTWARE ENGINEER | FULL STACK DEVELOPMENT | REST APIs

Bhubaneswar, Odisha, India | +91-8893770796 | vinayviratoff@gmail.com
LinkedIn: linkedin.com/in/vinay-virat-417695259 | GitHub: github.com/vinayviratwork | Portfolio: vinayviratwork.github.io

PROFESSIONAL SUMMARY

Platform Software Engineer with hands-on experience building and maintaining Spring Boot REST services, designing normalized MySQL schemas and delivering features in Agile sprints. Strong in API design, JWT authentication and role-based access control, with full-stack project experience in React.js, Node.js and MongoDB. 2026 B.Tech CSIT graduate focused on building reliable, well-documented platform services.

TECHNICAL SKILLS

Languages and Fundamentals: Java, JavaScript, Python, SQL, Data Structures and Algorithms
Backend and Platform: Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control
Frontend: React.js, HTML, CSS
Databases: MySQL, MongoDB, DBMS
Tools and Practices: Git, Postman, Docker, Agile/Scrum, SDLC, API Documentation, Code Reviews, Cloud Computing

PROFESSIONAL EXPERIENCE

Platform Software Engineer | Ambula Technology — Aug 2026 – Present

- Developed and maintained Spring Boot REST endpoints and CRUD services consumed by client applications and reporting tools.
- Designed normalized MySQL schemas and wrote SQL queries to support application logic and reporting requirements.
- Debugged and resolved backend defects, keeping applications stable through release cycles.
- Documented API behavior and followed team coding standards so the frontend team could integrate without back-and-forth.
- Collaborated with cross-functional teams in Agile sprints, delivering features on deadline.

Business Development Associate Intern | Infinity Learn — May 2026 – Aug 2026

- Managed 500+ active leads on LeadSquared CRM, configuring workflow automations, access controls and lead field structures.
- Built Power BI dashboards tracking outreach performance, follow-up rates and conversions for the sales team.

PROJECTS

Food Recipe Web Application | MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT

- Built a full-stack application with a React.js frontend and a Node.js/Express.js REST backend.
- Designed an indexed MongoDB schema for efficient data access.
- Implemented JWT-based role access control across frontend routes and backend endpoints.

RESTful Student Portal API | Java, Spring Boot, MySQL, JWT, Git

- Built REST endpoints and a normalized MySQL schema with input validation.
- Implemented JWT-based authentication and documented the API for frontend integration.

EDUCATION

B.Tech, Computer Science and Information Technology (CSIT) — 2022 – 2026
ITER, SOA University, Bhubaneswar | CGPA: 6.49/10
Coursework: Data Structures and Algorithms, DBMS, Operating Systems, Software Engineering, Cloud Computing

CERTIFICATIONS

- HackerRank Verified: SQL (Basic and Intermediate), Problem Solving (Intermediate), 2025
- Generative AI and AI Agents (GUVI/HCL), 2026

LEADERSHIP

- Selected for the McKinsey Forward Program (Oct–Dec 2026, ongoing)
- Student Coordinator, PROXIMA HR Summit: one of 15 head coordinators; managed volunteers and coordinated 20+ of 80+ HR professionals over a two-day summit
- Captain, SOA Kabaddi Team: coordinated 7 playing members and 5 substitutes
